Volume 75 (1991)

PHYSIOLOGY AND BIOCHEMISTRY

Changes in lipoxygenase isozyme levels during soybean embryo development
by D.F. Hildebrand, R.T. Versluys and G.B. Collins (Lexington, KY) ..... 1—8

Purification and characterization of a soybean cotyledon aminopeptidase
by J.M. Couton, G. Sarath and F.W. Wagner (Lincoln, NE) ..... 9—17

Evidence of a heat-stress signal in etiolated pea epicotyls
by M.A. Harrison (Huntington, WV) ..... 19—24

The hydrolysis of phosphorylcholine-containing metabolites in plant tissues: partial purification of a CDP-choline hydrolase from *Solanum tuberosum*
by R.A. Moreau and P.T. Asmann (Philadelphia, PA) ..... 25—32

Rapid changes in the enzyme activities and metabolites of the phosphatidylinositol-cycle upon induction by growth substances of auxin-starved suspension cultured *Catharanthus roseus* cells
by L. Grabowski, S. Heim and K.G. Wagner (Braunschweig, Germany) ..... 33—38

Phosphorylation of nuclear proteins and proliferation in root meristems of pea (*Pisum sativum*)
by D. Chiatante, P. Brusa, M. Levi and E. Sparvoli (Milan, Italy) ..... 39—46

Significance of sulphhydryl groups in the activity of isocitrate lyase of castor endosperm
by O.P. Malhotra, J. Singh and P.K. Srivastava (Varanasi, India) ..... 47—53

GENETICS AND MOLECULAR BIOLOGY

Putative high mobility group non-histone chromosomal proteins from pea (*Pisum sativum*)
by M.A. Ull, M.E. Herrero and L. Franco (Valencia, Spain) ..... 55—62

CELL AND TISSUE STUDIES IN VITRO

Ogura cytoplasmic male sterility and triazine tolerant *Brassica napus* cv. Westar produced by protoplast fusion
by H.M. Kao, G.G. Brown, G. Scoles and G. Séguin-Swartz (Saskatoon, Canada) ..... 63—72

Rapid high yield isolation of metabolically intact protoplasts of leaves from *Betula pendula* Roth
by M. Bielzer, H.B. Bendl, W.F. Nader and K. Brinkmann (Bonn, F.R.G.) ..... 73—82

Protein differences among *Populus deltoides* internodal stem explants determined for shoot regeneration or callus growth
by G.D. Coleman and S.G. Ernst (Lincoln, NE) ..... 83—92

Improved electrofusion of protoplasts of varied fusibility by selective pairing: application of asymmetric breakdown of plasm membranes
by B. Naton, E.M. Hoffmann, R. Hampp and I.K. Vasil (Tübingen, F.R.G. and Gainesville, FL) ... 93—105

Production and analysis of intraspecific somatic hybrids of potato (*Solanum tuberosum* L.)
by S. Waara, A. Wallin and T. Eriksson (Uppsala, Sweden) ..... 107—115

A comparative analysis of the root systems of light- and dark-grown seedlings of pea (*Pisum sativum* cv. Alaska)
by T.L. Rost and H. Toriyama (Davis, CA and Tokyo, Japan) ..... 117—121

Evidence of differences between related galactose-specific lectins from nodules and seeds of peanut
by I.J. Law, T. Haylett, A.J. Mort and B.W. Strijdom (Pretoria, South Africa and Stillwater, OK) . 123—127

GENERAL

The cell-wall glycoproteins of *Chlamydomonas reinhardtii*: analysis of the in vitro translation products
by J. Voigt, P. Münzner and H.-P. Vogeler (Hamburg, Germany) ..... 129—142

Erratum 143

PHYSIOLOGY AND BIOCHEMISTRY

Seed storage proteins in Fagaceae: similarity between *Castanea* globulins and *Quercus* glutelins
by C. Collada, R.G. Caballero, R. Casado and C. Aragoncillo (Madrid, Spain) ..... 145—154

Production of phomozin in sunflower following artificial inoculation with *Phomopsis helianthi*
by C. Mazars, E. Canivenc, M. Rossignol and P. Auriol (Toulouse, France) ..... 155—160

Occurrence of some antiviral sterols in *Artemisia annua*
by M.M. Abid Ali Khan, D.C. Jain, R.S. Bhakuni, M. Zaim and R.S. Thakur (Lucknow, India) .. 161—165

Choline kinase activities in choline-sensitive and choline-resistant tobacco cells or caluses grown on high choline concentrations. Effects on phosphatidylcholine synthesis
by M. Gawer, M. Guern, D. Chervin and P. Mazliak (Paris, France) ..... 167—176

Lipids and fatty acid patterns in developing seed, leaf, root, and in tissue culture initiated from embryos of *Daucus carota* L.
by P. Chandra Dutta and Lars-Åke Appelqvist (Uppsala, Sweden) ..... 177—183

Ammonium represses NADPH-nitrate reductase in the moss *Funaria hygrometrica*
by M. Padidam, K. Venkateswarlu and M. Mohan Johri (Bombay, India) ..... 185—194

Isoperoxidase in hairy roots and regenerated plants of horseradish (*Armoracia lapathifolia*)
by T. Saitou, H. Kamada and H. Harada (Ibaraki, Japan) ..... 195—201

Metabolic fate of *myo*-inositol in soybean callus cells
by M. Biffen and D.E. Hanke (Cambridge, U.K.) ..... 203—213

Aliphatic triene formation during the *Lupinus albus* lipoxygenase-catalyzed reaction. Comparison with double dioxygenation of arachidonic acid by soybean lipoxygenase-1
by R.H. Andrianarison, M. Tixier and J.L. Beneytout (Limoges, France) ..... 215—220

Extracellular ferricyanide reduction and nitrate reductase activity in the green alga *Monoraphidium braunii*
by A. Corzo, R. Plasa and W.R. Ullrich (Malaga, Spain and Darmstadt, Germany) ..... 221—228

GENETICS AND MOLECULAR BIOLOGY

Cloning and sequencing of a PCR amplified gamma-gliadin gene from durum wheat (*Triticum turgidum* (L.) Thell. conv. *durum* (Desf.) MK.)
by R. D'Ovidio, O.A. Tanzarella and E. Porceddu (Viterbo, Italy) ..... 229—236

Transient transformation of maize tissues by microparticle bombardment
by M.I. Reggiardo, J.L. Arana, L.M. Orsaria, H.R. Permingeat, M.A. Spitteler and R.H. Vallejos (Rosario, Argentina) ..... 237—243

PHYSIOLOGY AND BIOCHEMISTRY

Generation and multiplication of plantlets from callus derived from *Haplopappus gracilis* (Nutt.) Gray and their karyotype analysis
by R.P. Kann, S.A. O'Connor, H.G. Levine and A.D. Krikorian (Stony Brook, NY) ..... 245—255

Genetic analysis of protoplast culturability in *Solanum phureja*
by J. Cheng and R.E. Veilleux (Blacksburg, VA) ..... 257—265

Book Reviews ..... 267—268
Subject Index Volume 75 ..... 269—271
Author Index Volume 75..... 273
Contents Volume 75 ..... 275—276
